Claims 152-213 are presented for examination.

Applicants' request for reconsideration filed November 9, 2009 has been received and entered.

Accordingly, the rejection made under 35 USC 103(a) as being obvious over Vermeer (5,880,076) as set forth in the previous Office action dated July 8, 2009 at pages 2-4 is hereby vacated.

Allowable Subject Matter

Claims 208-213 are allowable.

Claim Objections

Claims 153-182 and 184-207 are objected to.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 152 and 183 are again rejected under 35 U.S.C. 103(a) as being unpatentable over Vermeer (5,880,076) of record, for reason of record as set forth in the previous Office action dated July 8, 2009 at pages 2-4 as applied to claims 152-213.

Applicants' remarks regarding the prior art does not teach the polymers or the pigments are not persuasive since in column 29, lines 53-67 and column 30, lines 1-9 teaches the polymers; and column 30, lines 51-56 shows the pigments and dyes (colorants) used in the compositions.

Also applicants' claims do not recite the "critical limitation" of the preferred pigments or dyes.

The rejection made under 35 USC 103(a) is adhered to.

Claims 152 and 183 are not allowed.

To overcome this rejection, applicants may wish to amend claims 152 and 183 by inserting the preferred pigments and dyes of claims 161 and 188.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
